

The best AIR PURIFIER on the planet and in space!

and we can prove it

THE PROBLEM:

The pollution in the air that is not pulled into a HEPA or UVC air purifier will remain as odors or as harmful viruses, bacteria, mold, and VOCs. Even more, these air purifiers cannot possibly filter out or destroy harmful pathogens that have settled on surfaces.

THE SOLUTION:

VOCs

The Vollara Air & Surface Pro with ActivePure Technology fills up to a 3,000 sq. ft. area with safe oxidizing molecules that destroy harmful pathogens and contaminants that are in the air—and on surfaces.

Technically, it creates a continuous blast of hydroxyl kill agents that blow out into the atmosphere, creating up to **99.9999% destruction** of DNA & RNA viruses, bacteria, mold, pollen, odors, etc., in only an hour. **No other technology does that.**

The patented ActivePure technology was developed to protect the astronauts on the NASA International Space Station.

The ActivePure Technology is one of only 75 technologies that have been inducted into the Space Technology Hall of Fame.

The Vollara Air & Surface Pro

Pushes the Solution to the Pollution!

If you don't use an
air purifier, you are
the purifier.

we breathe up to 3,000 gallons of air daily

WHO USES ActivePure Technology?

A short list of clients:

- Used on the **NASA International Space Station**, at the Ground Zero Museum, the **Pentagon**, the Liberty Bell Museum, and hundreds of thousands of hospitals, doctor and dental offices, nursing facilities, hotels, schools, and homes. In fact, in 2020 the company experienced a 1,200% growth.
- Over **2,000 units** were placed throughout Washington State government facilities.
- Nearly **30 Major League Baseball teams** now have ActivePure technology in their facilities.
- ActivePure Technologies has a partnership with Mitsubishi Brazil to mass-produce its **first in-automobile air purifier**,—AutoPure.
- **The Cleveland Clinic**, which is one of the nation's top medical research facilities, and the **Texas State Capitol**.
- During a natural gas leak in Aliso Canyon, California, in late 2015 and early 2016, thousands of residents were able to stay in their home after **Southern California Gas** ordered 10,000 units and distributed them to residents.
- The Pine View School **community donated** 130 units to be placed in every classroom.

The Vollara Air & Surface Pro

- Destroys harmful pollutants in the air and on surfaces
- Removes odors. Covers up to 3,000 sq. ft.
- 3-year limited warranty
- Uses only 43 watts
- Minimal Maintenance
- 11.75" high x 9.5" wide x 10" deep. Weight is 7.6 lbs.
- Quiet
